St Ervan Parish Council
St Ervan Village Hall
St Ervan
Wadebridge
Cornwall PL27 7TA

13th November 2023

Dear Sir / Madam,

On behalf of CleanEarth Energy Ltd, I would like to inform St Ervan parish council of a public consultation for a proposed repowering of Bears Down Wind Farm.

The proposed scheme consists of five wind turbines, up to 150m in height, with associated infrastructure and access track. The proposed wind turbines would be located on Land at Bears Down, Trevilledor Cross, Newquay, TR8 4HQ.

In response to Cornwall declaring a climate emergency on the 22nd of January 2019, and its ongoing commitment to reaching world-leading carbon emission reduction targets, CleanEarth has investigated the suitability for wind turbine development in the area.

The proposed Bears Down wind turbines will generate approximately 71GWh of renewable energy annually – the equivalent of powering over 14,000 Cornish homes. The proposal will constitute a significant contribution towards Cornwall's carbon reduction target to reach net-zero carbon emissions by 2030, and the UK's target to reach net-zero by 2050.

A public consultation will be held on Wednesday 29th November, between 3pm - 7pm at St Eval Community Centre, Orion Drive, St Eval.

Please note this is an open event with no appointment required, however registering your interest prior to the event is encouraged via the contact details below.

Further details of the proposal will be available to discuss during the consultation and the full suite of reports will be published online at www.cleaneartenergy.com, where comments can be submitted up to 21 days following the event.

If there are any questions, or if clarification is required, please contact CleanEarth using the details below. Calls will be taken between 9am-5pm, Monday-Friday and emails checked regularly.

Yours Sincerely,

Evie Kneller
